WOULD YOU BE WILLING TO RECYCLE?

A local office paper recycling company, Legacy Project, Inc., offers a comprehensive program to collect the waste paper, aluminum cans and plastics generated in your office. 1515 & 1555 Poydras offers all of these recycling options, designed to be convenient and efficient.

- Small, personal-sized paper recycling containers are provided for each individual.
Note: Employees will need to empty these individual containers into a larger paper container in a designated area within your suite before recycling pick-up. Legacy Recycling will not go to employee desks for collection.
- Larger-sized paper containers are placed in strategic locations, usually by copy machines.
- Large plastics & aluminum recycle containers are placed in kitchen/break areas.

If you wish to participate in this program, please complete the following and return it to the JLL Building Management Tenant Services Representative, tsrpoydras@am.jll.com.
